## **DETAILED ACTION**

### ***Response to Amendment***

In response to the amendment filed 12/11/2003, the specification and claims 1-2, 5, 7-10, and 12 are amended and claim 15 added. Claims 1-15 are pending.

### ***Allowable Subject Matter***

Claims 1-15 are allowed. The following is an examiner's statement of reasons for allowance:

There is not taught or disclosed in the prior art a laser source comprising a coupler having four ports, where a loop of active fiber is coupled to two of said ports and pumped to produce amplified spontaneous emission, and where a plurality of wavelength selective reflectors is connected to at least a third of said ports, each reflector reflecting back into the active loop a first portion of the emission having a selected wavelength, and directing a second portion of the emission away from the loop to an output port coupled to the reflectors.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

Applicant's arguments filed 12/11/2003, with respect to the claims have been fully considered and are persuasive. The rejections of the claims have been withdrawn.
